PROFILE

Hello World!

My name is Evans Chaba, I am an ambitious 23 year old who loves flexing his creative muscle by crafting the digital world around him. Let's do it together 😊. You will come up with the idea and i will use modern technical skills to design, code and deploy your software on the internet for you !

RECENT PROJECTS

Think Tank United(in-progress) static-site & web-app
While attending the [integrify](#) bootcamp, i helped create the design system and coded the first draft using Gatsby, since graduation another team moved the project forward using WordPress.

FitiKunto(in-progress) static-site
I designed and coded a promo site for a great imaginary local gym
